I There have been some very sudden changes in Washington sluce Friday last. In the meantime the talk continues.

Many of those who have watched the course of Schafer White, of Louisiana, in the United States, Senato will be surprised, we think ito learn that he is the oungest member of that body, being lacity between Segretary Carlists and that 35 years of age. -Beston Regulation Administration members of the artistical forms. Majority rule in itself is entirely sound dectrine, but majority rule under the nonlikelon-which Mr. Bray acquirarily established was nost under and dangerous.—Boston Herald. d. On the other hand it was just and constitutional. For further particulars our crobatic contemporary is referred to the decision of the Subreme Court of the United States. Moreover It was the rule endorsed by Senator IIII, who read the decision in the Senate, and who is turn was endorsed by the Herald. The He dd has before now given some very amusing exhibitions of its uglity as contortionist, but the way it has doubled and twisted on the sulf-et of implority

In Washington Selater IIII advanced some life attention by tailing the floor in support of majority, rule, but even while the papers are still appland-.ing bla utterances he rushes off to Brooklyn to make a stump speech in favor of is machine ticket in which he appears olicle...n. The attempt to relieve bla carty of the responsibility in the financial controversy is as weak as it is false. It is true that the House of Represents tives with an overwhelming Democrati majority has passed the repeal bill bu that it was only saved from defeat by the Liepublicans. He expresses regret bill beanet. but the only reason, for this is found in the fact that the majority of the Democratic I stly is not in favor of the repeal bill. The Senator himself Mustrates this point very clearly in his speech showing how may it mould be to secure a fore on the measure by the constitutional methods dopted in, the last Republican House. His misrepresentation of national mut-ters was a fitting produce for his defense of the unsavory/Democratic testit. He again reported to the trickery so natural to the man by referring to the arraignment of Maynord as the charges of poof falk night be accepted by the lind of a political gathering that would assemble to greet David B. Mr. Gray, of Delaware, consulted with Ms. Curlisle and from these sources the committee was led to believe that the Administration would accept the comprombe bill.

The most reprehensible and | inexcus-The most reprenension and mexcus-able feature of the bill, the colonge of the so-called "selgolorage," was put into the measure at the request of Mr. Car-lisle. There is the authority of the Senator from Maryland for this statement. Because of what Mr. Carlisle, said, Mr. Gray, Mr. White, Mr. Lindsay and various other friends of the Admisistration signed the piedge to vote, for the bill. Even Mr. Voorhees agreed to atroduce
